Herbal Extracts

“Concentrates of Natural Products”

Processed Herbs (Intermediates)
for use of Manufacturers only

COMPANY PROFILE

Ansar Industries is one of the pioneers in the manufacture of herbal extracts in both dry extracts as well as soft extracts established since 1969 in India. Ansar Industries has been an instrumental in actively promoting the use of standardized herbal extracts by the pharmaceutical, dietary supplements and cosmetics industries.

Being one of the oldest and most experienced manufacturers in this trade, Ansar Industries has made a significant contribution in popularizing the benefits and use of herbal extracts on a global scale.

All this is a result of continuous research and development over the past 25 years, which has helped Ansar Industries to standardize the plant extract with respect to active ingredients and therapeutic activity.

QUALITY POLICY

The company has a well-furnished drug approved laboratory which carries out, TLC, UV, Karl Fisher and if necessary it can also perform HPLC and HPTLC tests as per client's request.

The deionised water used in production process along with other preventive measures assures the highest quality of finished products, which confirm to USP standards of microbiological parameters and heavy metal contents. The finished products are analyzed in both in house and independent laboratories.
